

## Donor Conception & Surrogacy Network

*A new initiative by Fertility NZ to create community and connect people with various whānau forms*

- A safe, confidential forum (members are screened)
- Suitable for those exploring donation / surrogacy, those who already have whānau built in these ways, and those who are going through the process
- Share ideas and provide mutual support
- Search 'Donor Conception Network NZ' in Facebook groups
- It is a 'closed group' so only others within the group will be able to see your identity (Admins are visible to everyone)
