

Gynaecological Oncology Referral Pathway

For referring consultants/registrars/GPs

1. Referrer emails the completed [Gynae Oncology Referral form](#) to gynaeoncteam@adhb.govt.nz
2. Referral is triaged by a Gynae Oncologist.
3. Referrals **NOT ACCEPTED** for MDM:
 - MDT co-ordinator will email the referrer, with reason and any clinical advice.
4. **INCOMPLETE** referrals:
 - MDT co-ordinator will email the referrer, requesting outstanding details.
 - The minimum referral requirements are listed on the referral form.
5. **ACCEPTED** referrals:
 - MDT co-ordinator acknowledges referral & informs referrer by email of MDM date.
 - MDM case preparation:
 - Gynae Oncology Registrars prepare MDM documents and collate results.
 - LabPlus request pathology slides on non-ADHB/CMDHB/WDHB & private cases.
 - MDT co-ordinator requests radiology images on non-ADHB/CMDHB/WDHB & private cases.
 - MDM held Wednesday morning. Referrers attend via videoconferencing to provide clinical detail and record outcomes.
 - Formal MDM report with outcome is published by the end of the week.

Note: Re-referrals (patients previously discussed at MDM) can be emailed to gynaeoncteam@adhb.govt.nz with patient's latest clinical updates, details of latest histology/radiology tests that need reviewing, and specific queries. See the [Referral Hub](#) for more referral guidance.

For non-ADHB/CMDHB/WDHB referrers

Ensure histology slides are couriered to:

Florence Zafari

Anatomical Pathology, LabPlus
Level 2, Building 31, Gate 4
Auckland City Hospital
Grafton Auckland

Arrange electronic transfer of images to:

PACS-ADHB

PACS Radiology Support
Level 5, Building 32
Auckland City Hospital
Grafton Auckland

Histology slides or radiology images not received in time may cause deferral of the case discussion.
